

App in a Day

Business Application Platform

Power Apps, Power Automate
& Common Data Service (CDS)

Eric Sauv , XRM Vision

Road map and call to action

Microsoft Power Platform

One low-code platform that spans Office 365, Dynamics 365, Azure and standalone applications

Power BI
Business analytics

Analyze

Power Apps
Application development

Act

Power Automate
Workflow automation

Automate

**Data
connectors**

**AI
Builder**

**Common
Data Service**

Canvas Apps help business-power-users to create and use custom business apps across platforms using Excel and PowerPoint skills

Connect to data & systems you're already using *easily*

Create apps, forms, and workflows *without writing code*

Use apps *on any device* – both web and mobile

Common Data Service (CDS)

Allows you to securely store and manage the data used in apps

CDS is how Power Apps, Office, and the Dynamics suite of products integrate with a single system of record for business data

Store data in standard and custom entities with rich metadata

Build Power Apps apps and automate flows against the data stored in CDS

Add Business rules & validation
Define role-based security

Power Apps Model-driven apps provides a metadata-driven architecture for creating and customizing apps without writing code

Rich component-focused no-code design environments

Easily add Business rules and Business process flows to model your business processes

Complex responsive apps on web and mobile

Power Automate is a service for automating workflows across apps and services

Connect to data & systems you're already using; create the data you need

Create workflows using triggers & actions without code or scripts

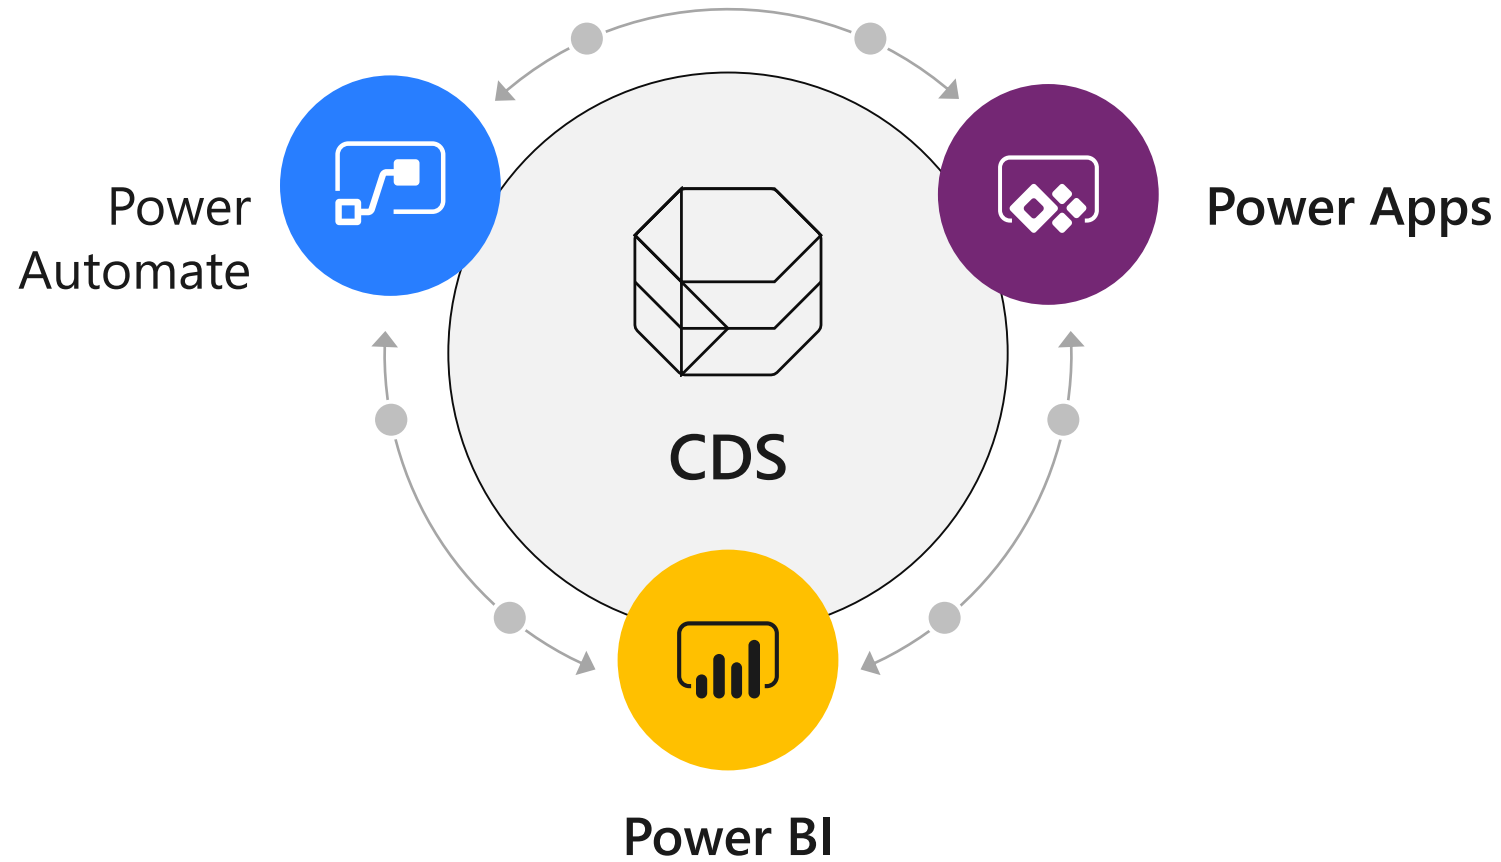

Edit flows on web and mobile

Approve requests or manage them on web and mobile

The road ahead

Converging App Types

Canvas Apps

Model Driven Apps

- + Reusable Canvas Components in Canvas and Model Driven Apps
- + Pro Developer Components (PCF) in Canvas and Model Driven Apps

Converging App Types

Canvas Apps

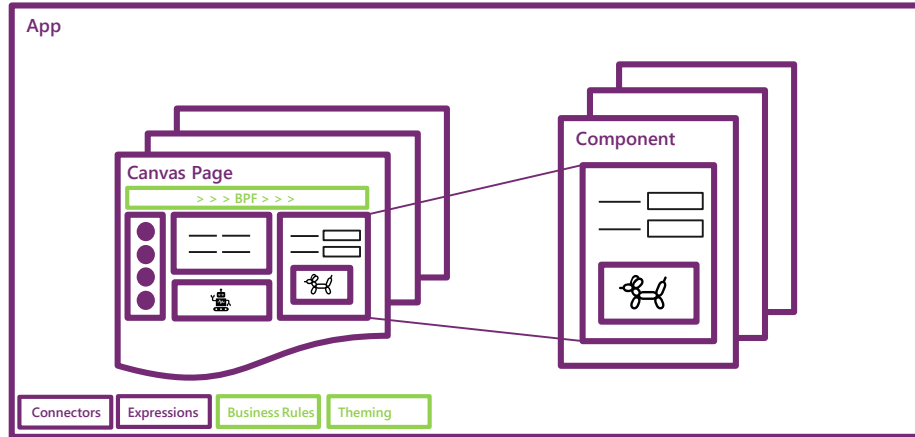

Model Driven Apps

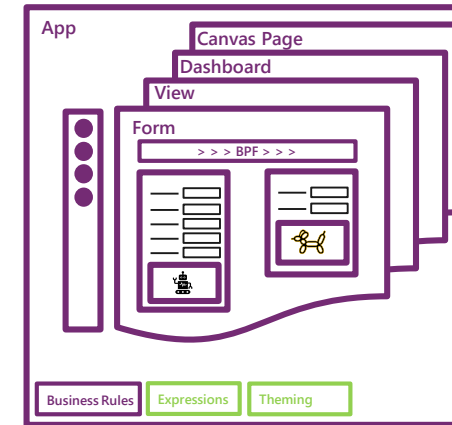

- + Responsive, reflowing Canvas Pages
- + Seamless navigation between UCI and Canvas Pages
- + Improved runtime (Performance, Limit JS Code, Improved embedding)

Converging App Types

Canvas Apps

Model Driven Apps

- + Process Control (PCF) across Canvas and Model Driven Apps.
- + Business Rules for Canvas.
- + Expressions for Model Driven Concepts (Rules, Calculations, Forms, etc).
- + Common theming across Canvas and Model Driven Apps.

Converging App Types

Power Apps

- + Converged Maker and User experiences for apps
- + Existing and new apps moved to common designer
- + Marketplace for component distribution and discovery

We would like to hear from you

Event feedback

AIAD TTT Post Event Survey

Event Feedback

Thank you for attending our App in a Day workshop! We need your feedback so we know how to make our next event even better. We would also like to know more about our attendees.

We appreciate your answers to these brief questions and promise you that all information is kept confidential.

1. Which AIAD TTT event did you attend? *
2. What Department are you in?
3. Choose the industry that best identifies you?
4. How did you learn about the event?

Goes to the Microsoft team

Partner with Microsoft on your platform

Whether a business problem solver designing your first application or a professional developer customising a critical business process solution, the Power Platform sits at the heart of our mission to empower every person and organization to achieve more.

PowerApps and Microsoft Flow: Learning Resources

Saurabh Pant, Principal Program Manager, Monday, April 1, 2019

As members of the PowerApps and Microsoft Flow Customer & Partner Success team, we often get asked for a summary of resources to share with customers on their Power Platform journey. Below is a set of links we've curated to help novice, intermediate and advanced users as they take this journey with us. The shortcut for this blog post is <https://aka.ms/PowerAppsResources>.

I am NEW, help me get started

- The Microsoft Power Platform: Empowering millions of people to achieve more – [blog post by James Phillips | Satya Nadella at Inspire 2019](#)
- Latest updates – [April 2019 Virtual Launch event](#) | [Product update & demo by Charles Lamanna](#)
- Overview websites: [Power Platform](#) | [PowerApps](#) | [Microsoft Flow](#) | [Power BI](#) | [Ignite 2018 presentation](#)
- Create your first: [PowerApps Canvas App](#) | [Model-driven app](#) | [Microsoft Flow](#) | [Power BI dashboard](#)
- Sign-in and explore samples and templates – [PowerApps](#) | [Microsoft Flow](#)
- Step by step labs: [App in a Day](#) | [Flow in a Day](#)
